

# KENDRIYA VIDYALAYA NO 1 ITANAGAR ARUNACHAL PRADESH

**PATRON : DR. K. K. PANDEY**

**(PRINCIPAL K.V.No. 1 ,NLG)**

**GENERAL SECRETARY: VIRESH KUMAR(PGT PHYSICS)**

**CONVENER: SUBHAJIT MUKHERJEE (XII A)**

A student after passing class - X with good marks, takes admission in science stream with rosy dreams in his/her mind. But after a few days the dreams become evaporated and the student realizes that earlier he/she was swimming in a River and now he has entered into a Sea, where the hurdles are not only more, but very tough in nature. Here patience, perfect approach, concept building and good guidance may lead to the students to the point of victory. Here we may recall the great quote of - Venus Williams

*"You have to believe in yourself  
when no one else does.  
That's what makes you a winner."*

In this direction we are going to develop a Physics Club in our school K.V.No.-1 for the benefit of the students community as a whole and especially for the benefit of the students of Class-XI & XII, where the participant can share their thought, the junior may take guidance from the senior and the entire club can enjoy the best guidance from teachers. Our main motto is to help students to feel the essence of physics.

Physics - According to Dictionary, It is the branch of science concerned with the nature and properties of matter and energy. So Physics is the most basic and fundamental branch of science as all scientific events and explanation are related to the same. So this branch is full of unknown facts and the spontaneous desire to know leads the scientists to discover many new things. In this universe, there are things which have been explained by the great scientists but much

more happenings are needed to be explained in the forth coming days. If we consider ourselves to be a part of so called mission in this direction then our purpose to study physics will be successful. The unexciting state prevailing during study of physics will change to a state of Joy, which can generate a new era for the student community of science stream.
